

**AIRFLOW REGULATOR
A161368****Product Description**

North's in-line airflow regulator is a masterpiece of and simplicity of operation. A durable plastic ring revolves around a tube, covering two flow holes. By turning the ring, the operator closes and opens the holes, controlling the airflow as required. A bleeding hole in the tube centre allows the minimum required airflow to the hood at all times.

Features and Benefits

- ✓ unique patented design
- ✓ Modern slim and low profile design reduces the chance of catching
- ✓ Simple to use
- ✓ Including odour filter for improved operator comfort
- ✓ Precise flow adjustment increases wearer comfort
- ✓ Flow adjustment friction prohibits unintended airflow change
- ✓ No moving parts reduces chance of malfunction

Certification

CE Approved for use with North –pl airhoods, welding airhoods and full face masks.

Notified Body

CE 0158

Performance**Material Composition**

Regulator (A160674)
Breathing hose (A161370)
Air flow indicator (A160510)

Belt (A160691)
Nipple (A160549)
Charcoal filter (A160048)

Acrylonitrile-butadiene-styrene (ABS), black
High Density Polyethylene (HDPE)
Tube: clear acrylic
Ball: Polyolefin Methacrylate, yellow
Base: Polyolefin Methacrylate, black
40 mm PE, smooth weaved band, black
Stainless steel
Charcoal, cotton

**WARNINGS**
