

PRODUCT DATA SHEET

Sorbent Granular Maintenance

This lightweight, dry, granular sorbent is safe for people, plants, animals, and food processing facilities. Effective on most types of spills including oils, fuels, chemicals, paint, antifreeze, bases body fluids, non hydrofluoric acids and many others.

the granular sorbent is sprinkled on to the spill which then turns into a solid. The spill can then be easily swept away with a broom.

Simply The Best!

Absorbency: up to 6.25 gal. water and 11.6 gal. oil ***
 Base Material: Mineral

Item#	Color	Format	Recycled Content*	Weight/Case**	Bags/Pallet
990705	Off white	Granular	100%	25lbs. (12Kg)	60

KEY FEATURES AND APPLICATION

Absorbs liquids of any viscosity and leaves surfaces clean and dry.

Lightweight even when saturated, making it less costly to dispose of than heavier granular sorbents.

Safe for people, plants, animals and food processing facilities or surfaces including concrete, tile and asphalt.

NOTES

- Do not use with hydrofluoric acid
- Ensure that disposal of these sorbents complies with all local, national and international regulations.

This is medium weight product

This product is in an Universal format

1
 Partially surround the spill by pouring ENmagic in front of the spill. Do not pour it on top of the spill.

2
 Push ENmagic into the spill by using a stiff bristled broom. Work on the ENmagic powder into the spill in a circular motion until fully absorbed.

3
 Remove the absorbed spill, usually best using a dustpan and broom. You must comply with all applicable local and state laws.

* Basis weights and recycled content are ± 5%

** Weight per case ± 1lb.

*** Measures a case/bale using ASTM 726 (long test) with medium viscosity oil and tap water. Statistical average derived from real time production QC data.
