

MINI LEAK SEALING BAGS T1,T2,T3

Mini sealing bags of T1, T2, T3 type are used for sealing of tanks and barrels from 100 to 900 mm in diameter. Sealing bags are made of soft rubber. Their cord structure assures proper flexibility and capacity. Sealing bags are equipped with quick acting couplings for deflation and inflation.

Sealing bags

Technical data

| Type | T1 | T2 | T3 |
|-------------------------------|---------------|-------------------|---------------|
| Code | 78082 | 78096 | 78099 |
| Dimensions (cm) | 15 x 15 x 1.2 | 22.5 x 22.5 x 1.2 | 30 x 30 x 1.2 |
| Sealing surface (cm) | 10 x 10 | 17.5 x 17.5 | 25 x 25 |
| Max. inflation pressure (bar) | 1.5 | 1.5 | 1.5 |
| Sealing pressure (bar) | 1.4 | 1.4 | 1.4 |
| Volume (l) | 1.2 | 4.5 | 10.5 |
| Hmotnost (kg) | 0.36 | 0.81 | 1.37 |

SET consists of :

| Code | Description | Quantity | Weight (kg) |
|--------|-------------------------------------|----------|-------------|
| 528873 | Foot pump with safety valve 1,5 bar | 1 | 2.5 |
| 60167 | Fasten belt, L=1500mm, yellow | 2 | 0.2 |
| 60169 | Fasten belt, L=3000mm, yellow | 3 | 0.4 |
