

PRODUCT DATA SHEET

Marine Booms White Oil-only

Flexible tubes filled with highly absorbent recycled material.
 All-in-one construction stitches the sock and net together and aligns the rope along one side.
 Available in 5" and 8" diameters
 Oil-only booms absorb petroleum-based liquids but resist water.
 Contains a high-performance blend of chopped polypropylene and Poro-Sorb fibers.
 A strong rope runs along the length
 Has rust-proof end rings and snap hooks

Absorbency: 36 Gal. oil ***

Base Fiber: Polypropylene and cellulose

Simply The Best!

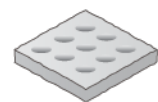

Item #	Color	Application	Size	Recycled Content*	Units/Case	Weight/Case**	Case/Pallet
990602	White	Oil-only	5"x10' (12.5cmX300cm)	80%	4	30lbs. (13.6Kg)	20

KEY FEATURES

- All-in-one construction produces exceptional strength prevents the boom from twisting
- End rings and snap hooks make deployment of the desired length fast and easy
- Can stretch without failing
- Resists snagging on debris
- Outer polyester net is more UV resistant than polypropylene skins
- Contains a proprietary additive to increase absorbency and help keep booms afloat even when they are fully saturated
- Made with high recycled content

This product is made from sustainable sources

This product is in an Oil-only format

APPLICATION

The ideal solution when you need to quickly and effectively contain petroleum-based spills from spreading on water or in outdoor environments where you want to avoid soaking up water.

NOTES

- Fire retardant as per ASTM 726
- Avoid high-heat applications
- Ensure that disposal of these sorbents complies with all local, national and international regulations

* Basis weights and recycled content are ± 5%

** Weight per case ± 1lb. (0.5 Kg)

*** Measures a case/bale using ASTM 726 (long test) with medium viscosity oil and tap water. Statistical average derived from real time production QC data.
