

ASBESTOS REMOVAL

SCOTT . . . RESPIRATORS OF CHOICE

Scott Health & Safety provide the respirators of choice for the removal of asbestos.

With a long and proven tradition of understanding the specific needs of the asbestos market demonstrated by instantly recognisable respiratory protection products such as Phantom, PowerPak and Proflow, Scott's range is constantly refined and improved according to the industry's demands.

Comfort, ease of use and low maintenance costs are combined with the highest levels of protection and the durability required to withstand the arduous conditions of asbestos stripping. This formula produces a range of respiratory protection that has proved globally to be *the* most acceptable to users, specifiers and authorities alike.

Latest enhancements include: electronic record keeping, practical storage solutions and extended warranties and – given that when working with asbestos, respiratory protection is essential – Scott continues to provide *the respirators of choice*.

ASBESTOS REMOVAL

PROFLOW SC ASBESTOS

Combining durability with advanced electronic assistance, Proflow SC Asbestos is specifically designed to meet the demands of asbestos removal.

- ⊙ 3 year/1800 hour blower warranty
- ⊙ No user servicing or calibration required
- ⊙ Low maintenance and through-life costs
- ⊙ 160 l/min minimum airflow, maintained electronically
- ⊙ Continuous display of battery and filter status
- ⊙ Typical 10 hours use from a single charge
- ⊙ Shower proof and easy to decontaminate
- ⊙ Performance and service history automatically recorded and easily downloaded

SARI

PROMASK

PHANTOM

With the blower mounted in the facemask, Phantom reduces the amount of equipment worn and simplifies decontamination.

- ⊙ **Mask mounted system - no trailing air hose**
- ⊙ **Compact and lightweight - just 1.5kg including battery**
- ⊙ **160 l/min minimum airflow, maintained electronically**
- ⊙ **Typical 8 hours use from a single charge**
- ⊙ **Comfortable silicone facemask**
- ⊙ **No internal half mask required**
- ⊙ **Shower proof and easy to decontaminate**
- ⊙ **Simple to clean and maintain**

POWERPAK

Built for durability, PowerPak is easy to operate and maintain.

- ⊙ **Robust construction**
- ⊙ **Self contained with integral battery**
- ⊙ **Range of facemask styles and materials**
- ⊙ **All facemasks available in choice of sizes**
- ⊙ **Range of particle, gas and combination filters**
- ⊙ **Typical 8 hours use from a single charge**
- ⊙ **Shower proof and easy to decontaminate**
- ⊙ **Simple to clean and maintain**

ASBESTOS REMOVAL

RAS ASBESTOS

When contaminant levels are difficult to control, e.g. hot stripping, RAS Asbestos provides positive pressure airline breathing apparatus for added protection.

- ⊙ Choice of Vision 3 or PanaSeal facemasks
- ⊙ Facemasks available in choice of sizes and materials
- ⊙ Range of particle, gas and combination filters
- ⊙ Choice of airline length
- ⊙ Filter protection while disconnected from airline
- ⊙ Automatic first breath activated demand valve
- ⊙ Optional constant flow setting
- ⊙ Smooth harness material - easy to decontaminate

NEGATIVE PRESSURE RESPIRATORS

For support activities a complete range of negative pressure respirators and filters are available.

PROMASK FULL FACEMASK

- ⊙ 'Procomp' material for comfort, durability and long service life
- ⊙ Available in two sizes
- ⊙ Clear silicone inner mask increases wearer acceptance
- ⊙ Unobtrusive side filter mounting
- ⊙ 'Data Tag' version available for electronic traceability

VISION FULL FACEMASK

- ⊙ Virtually unrestricted (98%) field of vision
- ⊙ Comfortable and durable silicone face seal
- ⊙ Visor is scratch and solvent resistant as standard
- ⊙ Front or side mount 40mm thread (plus twin cartridge) versions available
- ⊙ All versions available in three sizes

HALF MASKS

- ⊙ Silicone or natural rubber models
- ⊙ Single or twin filter models for cartridges or 40mm thread canisters
- ⊙ Available in a choice of sizes
- ⊙ Contoured for exceptionally efficient fit
- ⊙ Large diameter valves for ultra-low breathing resistance
- ⊙ Easy-fit head harness

SILNER 12

ORDERING DETAILS

PROFLOW SC ASBESTOS

Blower, belt, battery, charger, facemask and two filters all in a robust storage case with separate hygienic storage box for the mask

064331	Proflo SC Asbestos with Promask size M and EU charger
064359	Proflo SC Asbestos with Promask size M and UK charger
052670	PF10 TM3PSL filters (supplied in multiples of 20)
052692	Prefilters (6) with 2 holders

Proflo SC Asbestos is also available with Promask size S, Sari silicone and natural rubber full face-masks, and silicone and natural rubber half masks

PHANTOM

Motor, belt, battery, facemask and filter all in a robust storage case with separate hygienic storage box for the mask

PPR2000	Phantom with silicone facemask
PPR2/BC/SM	Smartcharger for PPR2000 (UK, EU, Aus)
PF251/2	TM3PSL filters (20)
RXPF/Holder	Prefilters (6) with 2 holders

POWERPAK

Blower, belt, battery and facemask all in a robust storage case with separate hygienic storage box for the mask

RPF92/4/60	PowerPak with Gemini size ML silicone
RXBC92/2	EU Charger
RXBC92/3	UK Charger
RC351/13	PowerPak TM3PSL filter
RXPPF81	Prefilters (10)

PowerPak is also available with Gemini size MS silicone, Gemini neoprene in two sizes and Vision in three sizes

A range of gas and combination filters are also available for use with PowerPak

RAS ASBESTOS

Bandolier harness, demand valve, in-line filter, airline manifold and filter blanking cap

2008235	RAS Asbestos airline breathing apparatus
2001746	Vision3 BA facemask with demand valve bayonet and filter connection
EC251R	P3 filters for RAS (20)

RAS Asbestos is also available with Panaseal silicone and neoprene BA masks. A range of airline supply hoses in various lengths and compressed air filter units is also available

Your respiratory protection supplier will provide ordering details for the full negative pressure range
