KEY FEATURES

- Flexible socks conform to equipment, uneven surfaces and corners
- outer polyester knit sleeve is more UV resistant and stronger than competing polypropylene skins
- Nearly 100% recycled content

This product is made from sustainable sources

This product is in an Universal format

APPLICATION

These flexible socks are suitable for clean up and containment of small spills. They conform to uneven surfaces and mold around corners. Use them around equipment and piping to contain leaks.

NOTES

- Ensure that disposal of these sorbents complies with all local, national and international regulations.

* Measures a case/bale using ASTM 726 (long test) with medium viscosity oil and tap water. Statistical average derived from real time production QC data.
** Basis weights and recycled content are $\pm 5\%$
*** Weight per case $\pm 1\text{lb.}$ (0.5 Kg)
