

PRODUCT DATA SHEET

Poro-Sorb Sonic Bonded Yellow Chemical Pads

Versatile, cost-effective and an environmental winner.
 Bright yellow in color makes them easier to locate and warns that a hazardous liquid may be present. Made from one layer of Meltblown which is sonically bonded together. Very even structure helps to contribute to its good absorbency capacity.

Simply The Best!

Absorbency: up to 20 gal. oil and 13 gal. water ***
 Base Fiber: Polypropylene

Sonic bonded Meltblown

Sonic bonding lowers lint and increases strength

KEY FEATURES

- This pad is made from one layer of Meltblown Poro-Sorb that is sonically bonded together.
- Good value and reliable performance.
- Made from high quality polypropylene

APPLICATION

A very economical choice for handling smaller chemical spills. Use to clean up a wide range of toxic, flammable, corrosive or aggressive liquids.

Always use when there is a spill of unknown liquids

NOTES

- Be aware of compatibility of chemicals when using this product
- Fire retardant as per ASTM 726
- Ensure that disposal of these sorbents complies with all local, national and international regulations

This is medium weight product

This product is in a chemical format

* Basis weights and recycled content are ± 5%

** Weight per case ± 1lb.

*** Measures a case/bale using ASTM 726 (long test) with medium viscosity oil and tap water. Statistical average derived from real time production QC data.
