

# SCOTT SUPPORTS LAW ENFORCEMENT

---

## WITH TACTICAL RESPIRATORY PROTECTION.

Today's law enforcement personnel are challenged with the potential for responding to weapons of mass destruction and clandestine lab operations. Scott Health and Safety, the leader in firefighter respiratory protection, now provides tactical teams with optimum respiratory protection against hazardous chemicals and biological agents.

Scott high performance systems include:

- SWAT-PAK™ SCBA
- C420 PAPR (Powered Air Purifying Respirator)
- AV-2000® full facepiece and complete line of NBC canisters and industrial cartridges
- Rugged and reliable advanced communications systems
- Lightweight, ergonomically designed thermal imaging cameras for various levels of domestic preparedness
- NBC gas masks and protective hoods

Dangerous situations demand the best protection available. Your mission, your courage and your dedication send you in. Scott helps bring you out.
